SITE PLANS AND FLOOR PLANS

THE CLEARWATER BAY HORIZONTAL PROPERTY REGIME

PHASE XIII

BUILDING 16

NOTE

Exhibit "B-9" is composed of a survey showing the location of Building 16 and other improvements, as well as the vertical locations of each floor and the Units located therein. Exhibit "B-9" also includes a set of floor plans for Building 16, which shows graphically the dimensions, area and location of each Unit in the Building, and the dimensions, area and location affording access to each such Unit.

The survey for Building 16 has been recorded in Plat Book 230 at Page 112. The floor plans for Building 16 have been recorded in Condominium Cabinet 230 at Page 113.

Exhibit "B-9" further includes the matters set forth below, and includes the attached Building 16 certification letter by Miller Design Services, P.A., architect of the above referenced plans, dated September 18, 2007 and recorded herewith.

Building 16 contains three (3) Units. Each Unit is individually numbered and described as Unit 1611, Unit 1612 and Unit 1613. Unit 1611 is one-story in height and Units 1612 and 1613 are each two stories in height. Unit 1611 is located on the northwest end of Building 16, and Unit 1613 is located on the southeast end of Building 16. All the Units have both garage and living area on the ground floor. Units 1612 and 1613 have an additional living area on the second floor, as well as a Limited Common Element courtyard adjacent to each of the Units. Unit 1611, the one-story Unit, has two bedrooms, a master bedroom and a second bedroom, and two full baths. Unit 1612, a two-story Unit, has an owner's suite with adjoining sitting room and a second bedroom and two full baths on the first floor, and a third bedroom and full bath on the second floor. Unit 1613 has a master and second bedroom and 2½baths on the first floor, and a third bedroom and bath on the second floor.

The locations of each Unit and the floor plan for Building 16 are graphically shown on the floor plans of Miller Design Services, P.A., dated September 18, 2007. The as-built survey of Dale Land Surveying, dated July 25, 2007 shows the ground location of Building 16, the elevations of each floor of the Building, and the Common Elements, which as-built survey is made a part hereof and recorded simultaneously herewith.

As to each Unit: All built-in kitchen appliances, any refrigerator, air conditioner units and condensers and hot water heater located in each Unit are part of the Unit in which they are located and are not Common Elements. The entry stoop, patio or courtyard adjacent to each

Unit, including the railing thereof, is a Limited Common Element and is subject to restrictions as set forth elsewhere in this Master Deed.

The Developer shall provide either to the Owner or to the Association plywood sheets that may be placed over all of the windows in Building 16 in the event of an impending hurricane or storm. If given to the Association, the Association shall make such plywood sheets available to each Building 16 Owner in the event of such impending hurricane or storm and if the Association is not to undertake such installation and removal, which the Association is not otherwise obligated to undertake as further provided in Section 4.2 of the Master Deed to which this Exhibit is attached and incorporated by reference. Unless specifically provided in this Exhibit "B-9" or any amendment or addition to this Exhibit for future phases and as may be required by law, the Developer shall not be obligated to provide plywood sheets or other hurricane covering for windows in the Regime's Buildings, other than is covenanted to be provided for Building 16, as herein stated.

Reference to areas as Common Elements or elements in this paragraph will be in addition to and read in conjunction with the further designations of Common Elements and elements set out in other portions of this Master Deed and the survey and floor plans making up the balance of this Exhibit "B-9". The asphalt parking areas designated on the as-built survey are Common Elements.

At the date hereof, the Declarant has completed construction of thirteen (13) Buildings, Buildings 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 12, 15 and 16, and being development Phases I – XIII. Buildings 11, 13, 14 and 17 through and including 63, or any of them, may be submitted in any order as Phases XIII through LXIII of The Clearwater Bay Horizontal Property Regime. As each phase is added, the total Assigned Value of all phases submitted and constituting The Clearwater Bay Horizontal Property Regime at that time and the Percentage Interest of each Unit may be determined. In determining the Percentage Interest of each Unit, a formula is employed using the Assigned Value of each Unit set forth in this Exhibit "C", as amended for each phase added, as the numerator and the total Assigned Values of all Units (including the phase being submitted and all phases previously submitted to the Regime) as the denominator. The resulting

fraction will then be expressed as a percentage rounded to the nearest .00001. The total Assigned Values assigned to each Building currently a part of the Regime and that may be constructed and submitted to the Regime as Phases XIV through LXIII, if constructed and submitted, will be in accordance with the following schedule.

Total Assigned Values in Building 16 Submitted Herewith	\$ 6,000

As an example, if Building 17, composed of 3 Units, is added as Phase XIV, the total Assigned Values in Phases I – XIII (\$78,000) would be added to the additional Assigned Values in Phase XIV (\$6,000), so that, following submission the total Assigned Values in Phases I –XIV would be \$84,000.00. To determine the Percentage Interest of Unit 1711 if Phase XIV is added to Phases I – XIII and those phases constitute the entire Regime, the following formula would be used:

ASSIGNED VALUE	<u>\$ 2,000</u>	=	2.38095%
TOTAL ASSIGNED VALUES	\$84,000
