SITE PLANS AND FLOOR PLANS

THE CLEARWATER BAY HORIZONTAL PROPERTY REGIME

PHASE V

BUILDING 9

NOTE

Exhibit "B-3" is composed of two surveys showing the locations of Building 9 and other improvements, as well as the vertical locations of each floor and the Units located therein. Exhibit "B-3" also includes a set of floor plans for each of Building 9, which shows graphically the dimensions, area and location of each Unit in the Building, and the dimensions, area and location affording access to each such Unit.

The survey for Building 9 has been recorded in Plat Book 222 at Page 111. The floor plans for Building 9 have been recorded in Condominium Cabinet 222 at Page 112. Exhibit "B-3" further includes the matters set forth below, and includes the attached Building 9 certification letter by Miller Design Services, P.A., architect of the above referenced plans, each dated February 8, 2007 and recorded herewith.

Building 9 contains three (3) Units. Each Unit is individually numbered and described as Unit 0911, Unit 0912 and Unit 0913. Unit 0911 is one-story in height and Units 0912 and 0913 are each two stories in height. Unit 0911 is located on the northwest end of Building 9, and Unit 0913 is located on the southeast end of Building 9. All the Units have both garage and living area on the ground floor. Units 0912 and 0913 have additional living area on the second floor, as well as a Limited Common Element courtyard adjacent to each of the Units. Unit 0911, the one-story Unit, has two bedrooms, a master bedroom and a second bedroom, and two full baths. Unit 0912, a two-story Unit, has an owner's suite with adjoining sitting room and a second bedroom and two full baths on the first floor, and a third bedroom and full bath on the second floor. Unit 0913 has a master and second bedroom and 2½baths on the first floor, and a third bedroom and bath on the second floor.

The locations of each Unit and the floor plan for Building 9 are graphically shown on the floor plans of Miller Design Services, P.A., dated February 8, 2007. The as-built survey of Dale Land Surveying, dated February 16, 2007 shows the ground location of Building 9, the elevations of each floor of the Building, and the Common Elements, which as-built survey is made a part hereof and recorded simultaneously herewith.

As to each Unit: All built-in kitchen appliances, any refrigerator, air conditioner units and condensers and hot water heater located in each Unit are part of the Unit in which they are located and are not Common Elements. The entry stoop, patio or courtyard adjacent to each Unit, including the railing thereof, is a Limited Common Element and is subject to restrictions as set forth elsewhere in this Master Deed.

The Developer shall provide either to the Owner or to the Association plywood sheets that may be placed over all of the windows in Building 9 in the event of an impending hurricane or storm. If given to the Association, the Association shall make such plywood sheets available to each Building 9 Owner in the event of such impending hurricane or storm and if the Association is not to undertake such installation and removal, which the Association is not otherwise obligated to undertake as further provided in Section 4.2 of the Master Deed to which this Exhibit is attached and incorporated by reference. Unless specifically provided in this Exhibit "B-3" or any amendment or addition to this Exhibit for future phases and as may be required by law, the Developer shall not be obligated to provide plywood sheets or other hurricane covering for windows in the Regime's Buildings, other than is covenanted to be provided for Building 9, as herein stated.

Reference to areas as Common Elements or elements in this paragraph will be in addition to and read in conjunction with the further designations of Common Elements and elements set out in other portions of this Master Deed and the survey and floor plans making up the balance of this Exhibit "B-3". The asphalt parking areas designated on the as-built survey are Common Elements.

Schedule of Assigned Values and Percentage Interests in the Common Elements

This is a schedule of Assigned Values and Percentage Interests in the Common Elements appurtenant to Units in Clearwater Bay. The Developer's current plan provides for sixty-two (62) Buildings developed in sixty-two (62) phases, which the Developer may, but is not obligated to, develop; provided, the Developer has also reserved the right to expand the Regime further by adding an additional sixty-third (63rd) Phase Building. At the date hereof, the Declarant has completed construction of five (5) Buildings, Buildings 2, 3, 4, 5 and 9, and being development Phases I-V. The Declarant has reserved the right, but not the obligation, to develop Phases VI through LXIII, inclusive. The Assigned Value is for statutory purposes only and has no relationship to the actual value of each Unit.

Buildings 1, and 6 through and including 8, and 10 through and including 63, or any of them, may be submitted in any order as Phases VI through LXIII of The Clearwater Bay Horizontal Property Regime. As each phase is added, the total Assigned Value of all phases

submitted and constituting The Clearwater Bay Horizontal Property Regime at that time and the Percentage Interest of each Unit may be determined. In determining the Percentage Interest of each Unit, a formula is employed using the Assigned Value of each Unit set forth in this Exhibit "C", as amended for each phase added, as the numerator and the total Assigned Values of all Units (including the phase being submitted and all phases previously submitted to the Regime) as the denominator. The resulting fraction will then be expressed as a percentage rounded to the nearest .00001. The total Assigned Values assigned to each Building currently a part of the Regime and that may be constructed and submitted to the Regime as Phases VI through LXIII, if constructed and submitted, will be in accordance with the following schedule.

Total Assigned Values in Building 9 Submitted Herewith	\$ 6,000

As an example, if Building 17, composed of 3 Units, is added as Phase VI, the total Assigned Values in Phases I - V (\$30,000) would be added to the additional Assigned Values in Phase VI (\$6,000), so that, following submission the total Assigned Values in Phases I - VI would be \$36,000.00. To determine the Percentage Interest of Unit 1711 if Phase VI is added to Phases I - V and those phases constitute the entire Regime, the following formula would be used:

ASSIGNED VALUE	\$6,000	=	5.55556%
TOTAL ASSIGNED VALUES	\$30,000
